DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed January 30, 2002 has been considered. Please see the attached initialed PTO-1449.

Election/Restrictions

2. Applicant's election with traverse of Group I in the reply filed on September 15, 2004 is acknowledged. The traversal is on the ground(s) that no lack of unity was held during international prosecution because the presence of the special technical feature allowed both methods to be considered as a single invention. This is not found persuasive because examination of all the claims would require more searching than was done for the PCT since American practice differs from European practice, particularly with regard to treatment of diseases. Thus, an undue burden exists.

The requirement is still deemed proper and is therefore made FINAL.

Allowable Subject Matter

3. Claims 12, 13, 16-18 and 20 are allowed. The prior art neither teaches nor fairly suggests the specifically claimed peptides. Therefore, since the peptides are novel and unobvious, their use in selecting and screening products capable of inhibiting apoptosis

Art Unit: 1653

is also novel and unobvious. Chassaing et al. is cited as of interest since they teach the internalization and addressing peptide in the instant claims.

4. This application is in condition for allowance except for the following formal matters:

The presence of nonelected claims 14, 15 and 19.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert A. Wax whose telephone number is (571) 272-0623. The examiner can normally be reached on Monday through Friday, between 9:00 AM and 5:30 PM.
